The COVID-19 Pandemic and the Future of Working Spaces Ilaria Mariotti 2022-08-26 This edited volume presents a compendium of emerging and innovative studies on the proliferation of new working

spaces (NeWSps), both formal and informal (such as coworking spaces, maker spaces, fab labs, public libraries, and coffee shops), and their role during and following the COVID-19 pandemic in urban and regional development and planning. This book presents an original, interdisciplinary approach to NeWSps through three features: (i) situating the debate in the context of the COVID-19 pandemic, which has transformed NeWSp business models and the everyday work life of their owners and users; (ii) repositioning and rethinking the debate on NeWSps in the context of socioeconomics and planning and comparing conditions between before and during the COVID-19 pandemic; and (iii) providing new directions for urban and regional development and resilience to the COVID-19 pandemic, considering new ways of working and living. The 17 chapters are co-authored by both leading international scholars who have studied the proliferation of NeWSps in the last decade and young, talented researchers, resulting in a total of 55 co-authors from different disciplines (48 of whom are currently involved in the COST Action CA18214 'The Geography of New Working Spaces and Impact on the Periphery' 2019-2023: www.new-working-spaces.eu). Selected comparative studies among several European countries (Western and

Eastern Europe) and from the US and Lebanon are presented. The book contributes to the understanding of multi-disciplinary theoretical and practical implications of NeWSps for our society, economy, and urban/regional planning in conditions following the COVID-19 pandemic.

International Case Studies on Tourism Destination Management and COVID-19 Simon Hudson 2022-08-18 International Cases on Tourism Destination Management and COVID-19 provides students, lecturers and practitioners with an essential real-life resource on how different tourism destinations around the world have been impacted by, and responded to, the COVID-19 pandemic. These 34 in-depth case studies from the Americas, the APAC region, Europe, and the Middle East allow a global perspective, and acts as a toolkit than can be used to

design a better future for tourism destinations that embraces sustainability and collaboration. For each case study, secondary sources such as media articles, industry and government reports, campaign materials, websites and social media channels have been closely analysed. In addition, interviews have been conducted with destination marketers, government officials, tour operators, professional guides, and hotel managers to provide a holistic view for each destination. Each case study is structured around COVID-19 impacts, responses and outcomes, and includes further reading, video links, and discussion questions to challenge students further in their self-study and to encourage in-class discussions. This is an essential resource for tourism students and lecturers across the curriculum, and a fascinating read for anyone in the business of tourism.
