[Energy Statistics Yearbook](#) United Nations 2005-09 This annual publication provides internationally comparable series of commercial energy statistics summarizing world level and regional energy trends. Annual data for 215 countries and areas for the period 1999 to 2002 are presented on production, trade and consumption of energy in a series of 38 comprehensive tables. In addition, per capita consumption series are also provided for all energy products. Graphs introduce major products showing historic trends and/or changes in composition of production and/or consumption of major products. Special tables of interest include international trade tables for coal, crude petroleum and natural gas by partner countries.
