Design Discourse Victor Margolin 1989-09-15 The editor has gathered together a body of writing in the emerging field of design studies. The contributors argue in different ways for a rethinking of design in the light of its cultural significance and its powerful position in today's society. The collection begins with a discussion of the various expressions of opposition to the modernists' purist approach toward design. Drawing on postmodernist theory and other critical strategies, the writers examine the relations among design, technology, and social organization to show how design has become a complex and multidisciplinary activity. The second section provides examples of new methods of interpreting and analysing design, ranging from rhetoric and semiotics to phenomenology, demonstrating how meaning is created visually. A final section related to design history shifts its emphasis to ideological frameworks such as capitalism and patriarchy that establish boundaries for the production and use of design.

The Despotate of Epiros 1267-1479 Donald M. Nicol 2010-02-11 The district of Epiros in north-western Greece became an independent province following the Fourth Crusade and the dismemberment of the Byzantine Empire by the Latins in 1204. It retained its independence despite the recovery of Constantinople by the Greeks in 1261. Each of its rulers acquired the Byzantine titles of Despot, from which the term Despotate was coined to describe their territory. They preserved their autonomy partly by seeking support from their foreign neighbours in Italy. The fortunes of Epiros were thus affected by the expansionist plans of the Angevin kings of Naples and the commercial interests of Venice. Until 1318 it was governed by direct descendants of its Byzantine founder. Thereafter it was taken over first by the Italian family of Orsini,

then conquered by the Serbians, infiltrated by the Albanians, and appropriated by an Italian adventurer, Carlo Tocco. Like the rest of Byzantium and eastern Europe it was ultimately absorbed into the Ottoman Empire in the fifteenth century. The Despotate of Epiros illuminates part of Byzantine history and of the history of Greece in the Middle Ages.
