Design Discourse Victor Margolin 1989-09-15 The editor has gathered together a body of writing in the emerging field of design studies. The contributors argue in different ways for a rethinking of design in the light of its cultural significance and

its powerful position in today's society. The collection begins with a discussion of the various expressions of opposition to the modernists' purist approach toward design. Drawing on postmodernist theory and other critical strategies, the writers examine the relations among design, technology, and social organization to show how design has become a complex and multidisciplinary activity. The second section provides examples of new methods of interpreting and analysing design, ranging from rhetoric and semiotics to phenomenology, demonstrating how meaning is created visually. A final section related

to design history shifts its emphasis to ideological frameworks such as capitalism and patriarchy that establish boundaries for the production and use of design.

The Seventh Secret Jennifer St. Clair 2008-05-27 Jacob Lane is a ten-year-old girl who's spent her life unaware of her magical heritage. After being sent to Darkbrook, a school of magic, supernatural mysteries seem to spring to life all around her and her new friends. After a picture of Niklas, the dragons' liaison to the only school of magic in the United States, shows up in too many newspapers to count, Darkbrook is forced to go on the defensive. The secret of Darkbrook's existence has been discovered. But there are more

than dragonhunters in the forest, and, as Jacob Lane, supernatural sleuth and student at Darkbrook, learns how to use her newly discovered talent of healing, she helps to right an old wrong and must battle a teenaged wizard intent on proving--once and for all--that magic is real.
