Into Thin Air Jon Krakauer 2011 When Jon Krakauer reached the summit of Mt. Everest in the early afternoon of May 10, 1996, he hadn't slept in fifty-seven hours and was reeling from the brain-altering effects of oxygen depletion. As he turned to begin his long, dangerous descent from 29,028 feet, twenty other climbers were still pushing doggedly toward the top. No one had noticed that the sky had begun to fill with clouds. Six hours later and 3,000 feet lower, in 70-knot winds and blinding snow, Krakauer collapsed in his tent, freezing, hallucinating from exhaustion and hypoxia, but safe. The following morning, he learned that six of his fellow climbers hadn't made it back to their camp and were desperately struggling for their lives. When the storm finally passed, five of them would be dead, and the sixth so horribly frostbitten that his right hand would have to be amputated. Into Thin Air is the definitive account of the deadliest season in the history of Everest by the acclaimed journalist and author of the bestseller Into the Wild. On assignment for Outside Magazine to report on the growing commercialization of the mountain, Krakauer, an accomplished climber, went to the Himalayas as a client of Rob Hall, the most respected high-altitude guide in the world. A rangy, thirty-five-year-old New Zealander, Hall had summited Everest four times between 1990 and 1995 and had led thirty-nine climbers to the top. Ascending the mountain in close proximity to Hall's team was a guided expedition led by Scott Fischer, a forty-year-old American with legendary strength and drive who had climbed the peak without supplemental oxygen in 1994. But neither Hall nor Fischer survived the rogue storm that struck in May 1996. Krakauer examines what it is about Everest that has compelled so many people -- including himself -- to throw caution to the wind, ignore the concerns of loved ones, and willingly subject themselves to such risk, hardship, and expense. Written with emotional clarity and supported by his unimpeachable reporting, Krakauer's eyewitness account of what happened on the roof of the world is a singular achievement. Into the Wild is available on audio, read by actor Campbell Scott. "From the Hardcover edition."

Territorio y poder 2015-02-18 Durante años, la política subnacional se mantuvo en las sombras de la indagación teórica y empírica de la Ciencia Política. Los fenómenos a estudiar pertenecían eminentemente al ámbito nacional y los factores explicativos también se correspondían con esta escala geográfica. Los procesos de descentralización, impulsados principalmente por las reformas pro-mercado, revitalizaron la política local y la conectaron de manera significativa a las dinámicas nacionales. Este libro es un intento exploratorio de relevar las relaciones de lo local con la política nacional en los sistemas de partidos multinivel de diez países latinoamericanos. A través de diversos análisis de la competencia electoral, se investiga los niveles subnacionales más importantes de los casos bajo estudio y su congruencia con la competencia nacional. Del mismo modo, se identifica a las organizaciones partidarias más relevantes, tanto tradicionales como no tradicionales, y se las vincula con las características de la competencia electoral. Del cruce de estas variables se construye una tipología de sistemas de partidos multinivel que permiten clasificar a los casos de manera dinámica dando cuenta de la competencia política a través del territorio. Los tipos resultantes agrupan casos que a primera vista son muy diferentes entre sí (federales y unitarios, grandes y pequeños, con distintos niveles de desarrollo) pero que comparten trayectorias y características relevantes en su vinculación nacional-subnacional por medio de los partidos y la competencia electoral. El libro encuentra evidencia de una relación asimétrica entre la congruencia sistémica y el predominio de partidos tradicionales, donde no hay casos que presenten patrones nacional-subnacionales congruentes y predominen partidos no tradicionales. El análisis histórico fortalece la hipótesis de que los casos de predominio de partidos no tradicionales fueron precedidos por patrones crecientes de incongruencia nacional-subnacional. Este descubrimiento amplía nuestro conocimiento de las transformaciones en los sistemas de partidos y sugiere la relevancia de incorporar dinámicas subnacionales a los estudios de política nacional.

Canadian Film and Video Loren R. Lerner 1997-01-01 This extensive bibliography and reference guide is an invaluable resource for researchers, practitioners, students, and anyone with an interest in Canadian film and video. With over 24,500 entries, of which 10,500 are annotated, it opens up the literature devoted to Canadian film and video, at last making it readily accessible to scholars and researchers. Drawing on both English and French sources, it identifies books, catalogues, government reports, theses, and periodical and newspaper articles from Canadian and non-Canadian publications from the first decade of the twentieth century to 1989. The work is bilingual; descriptive annotations are presented in the language(s) of the original publication. Canadian Film and Video / Film et vidéo canadiens provides an in-depth guide to the work of over 4000 individuals working in film and video and 5000 films and videos. The entries in Volume I cover topics such as film types, the role of government, laws and legislation, censorship, festivals and awards, production and distribution companies, education, cinema buildings, women and film, and video art. A major section covers filmmakers, video artists, cinematographers, actors, producers, and various other film people. Volume II presents an author index, a film and video title index, and a name and subject index. In the tradition of the highly acclaimed publication Art and Architecture in Canada these volumes fill a long-standing need for a comprehensive reference tool for Canadian film and video. This bibliography guides and supports the work of film historians and practitioners, media librarians and visual curators, students and researchers, and members of the general public with an interest in film and video.
