[Accelerators of India's Growth—Industry, Trade and Employment](#) Suresh Chand Aggarwal 2020-02-14 This book offers a collection of distinguished contributions that identify current growth accelerators in India, and suggest policies and strategies to make India's growth more sustainable and inclusive. The papers are divided into three sections, the first of which focuses on issues related to industrial growth in India. The discussions include India's industrial development (manufacturing, construction and mining); role of manufacturing; global value chains; and of environment in industrial development. In turn, section II deals with issues related to trade and FDI as accelerators of India's growth. The respective chapters explore the changing patterns of trade, impacts of technology, and spill-over effects of FDI, to name but a few. Lastly, the third section discusses employment-related issues like measurement of labour input, the dichotomy of the Indian labour market, the nature of firms and employment generation, and impacts of technology on employment. Given its scope and focus, the book offers an invaluable resource for researchers and policymakers alike.

[The American Nuclear Power Industry](#) William A. Pearman 2019-03-28 Originally published in 1985. This book examines the scope of the industry and also focuses on issues relevant to it, divided into three sections: an overview of the American nuclear power industry, an examination of the nuclear power plant licensing process and issues that face the nuclear industry, and selected case studies that illustrate issues discussed in the previous section. The growth and future of the nuclear power plant industry is discussed and industry-wide trends and relevant data are presented providing background information on the scope, diversity, capacity, and control of nuclear power in the United States. Issues examined concern safety; environmental, geological, and natural phenomenon matters; and anti-trust. The in-depth case studies on the status of selected nuclear power plants include: Three Mile Island, Enrico Fermi, Seabrook, Indian Point, R. E. Inna, Diablo Canyon, and Browns Ferry.
