*Plunkett's InfoTech Industry Almanac* Jack

W. Plunkett 2008-02 Plunkett's InfoTech

Industry Almanac presents a complete

analysis of the technology business, including the convergence of hardware, software, entertainment and telecommunications. This market research tool includes our analysis of the major trends affecting the industry, from the rebound of the global PC and server market, to consumer and enterprise software, to super computers, open systems such as Linux, web services and network equipment. In addition, we provide major statistical tables covering the industry, from computer sector revenues to broadband subscribers to semiconductor industry production. No other source provides this book's easy-to-understand comparisons of growth, expenditures, technologies, imports/exports, corporations, research and other vital subjects. The corporate profile section provides in-depth, one-page profiles on each of the top 500 InfoTech companies. We have used our

*Industries in Europe* P. S. Johnson

2003-01-01 'This book is to be recommended as a valuable reference source; the self-contained chapters provide well-written and informative introductions to the industries covered and the authors also give helpful guidance to further reading.' - Eleanor J. Morgan, The Economic Journal This important book presents an authoritative, up-to-date examination of a number of major industries in Europe. It offers valuable insights into the nature of industrial activity in Europe, as well as providing comprehensive introductions to a series of key industries, such as defence, construction, tourism and biotechnology.
