Pulp and Paper Industry Pratima Bajpai 2017-02-25 Pulp and Paper Industry: Emerging Waste Water Treatment Technologies is the first book which comprehensively reviews this topic. Over the past decade, pulp and paper companies have continued to focus on minimizing fresh water use and effluent discharges as part of their move towards sustainable operating practices. Three stages—basic conservation, water reuse and water recycling—provide a systematic approach to water resource management. Implementing these stages requires increased financial investment and better utilization of water resources. The ultimate goal for pulp and paper companies is to have effluent-free factories with no negative environmental impact. The traditional water treatment technologies that are used in paper mills are not able to remove recalcitrant contaminants. Therefore, advanced water treatment technologies are being included in industrial wastewater treatment chains aiming to either improve water biodegradability or its final quality. This book discusses various measures being adopted by the pulp and paper industry to reduce water consumption and treatment techniques to treat wastewater to recover it for reuse. The book also examines the emerging technologies for treatment of effluents and presents examples of full-scale installations. Provides thorough and in-depth coverage of advanced treatment technologies which will benefit the industry personnel, pulp manufacturers, researchers and advanced students Presents new treatment strategies to improve water reuse and fulfill the legislation in force regarding wastewater discharge Presents viable solutions for pulp and paper manufacturers in terms of wastewater treatment Presents examples of full-scale installations to help motivate mill personnel to incorporate new technologies

Daglicht David Baldacci 2020-11-17 Atlee Pine uit De lange weg naar genade en Eén minuut voor middernacht is terug! Al van jongs af aan leeft FBI-agent Atlee Pine in onzekerheid over wat er precies is gebeurd met haar tweelingzus Mercy. Het meisje werd op zesjarige leeftijd ontvoerd en is nooit meer teruggevonden. De politie stond destijds voor een raadsel en ook Atlees eigen onderzoek levert lange tijd niets op, totdat ze de identiteit van Mercy's ontvoerder weet te achterhalen: Ito Vincenzo. Maar juist dan krijgt ze van haar leidinggevend te horen dat ze haar zoektocht moet afronden, omdat het haar eigenlijke werk in de weg zit. In een race tegen de klok reist Atlee af naar Trenton, New Jersey, de plek waar Vincenzo voor het laatst is gezien. Daar kruist haar pad dat van special agent John Puller, die met zijn eigen onderzoek naar drugsmokkel op een legerbasis bezig is. Tot hun beider verbazing blijkt er een connectie te zijn tussen de twee zaken. Wanneer

Atlee en Puller hun krachten bundelen, stuiten ze op een complot dat de democratie in het hart zal treffen. Om eens en voor altijd duidelijkheid te krijgen over Mercy's lot, moet Atlee een web van leugens en bedrog ontrafelen. Maar de waarheid die ze hoopt te vinden, zou weleens hard kunnen aankomen...
