**Parlementaire onderzoekscommissie terroristische aanslagen 2016** Willy Bruggeman 2018 De aanslagen van 22 maart 2016 in de luchthaven van Zaventem

en het metrostation Maalbeek in Brussel eisten 32 dodelijke slachtoffers en vele gewonden. Omdat de tol zo hoog lag en iedereen zich afvroeg hoe dit in

België kon gebeuren, heeft het parlement kort daarop een onderzoekscommissie opgericht. Burgers hebben immers recht op antwoorden na dergelijk

schokkende gebeurtenissen. De onderzoekscommissie had een tweeledig doel. Enerzijds een reconstructie van de feiten: wat is er exact gebeurd en niet

gebeurd? Welke procedures werden gevolgd? Wie is daar verantwoordelijk voor? Waar ging het mis? Anderzijds het trekken van conclusies in de vorm van

aanbevelingen. Vier deeltitels werden onderzocht, wat resulteerde in vier deelrapporten: de hulpverlening en het crisisbeheer op 22 maart en de

daaropvolgende dagen, het lot van de slachtoffers in al zijn aspecten, de werking van de Belgische veiligheidsarchitectuur en tot slot de aanpak van

radicalisme in België. Daartoe werden gedurende anderhalf jaar 199 getuigen gehoord en werd niet minder dan 164 keer vergaderd. In de voorliggende

publicatie zijn deze rapporten voor het eerst gebundeld uitgegeven. Voorzien van een inleiding en ontsloten via uitgebreide inhoudsopgaven en registers,

beoogt deze uitgave de inzichten toegankelijk te maken voor alle belanghebbenden. Met als belangrijkste insteek: welke lessen zijn er te trekken voor de

toekomst?

**Democratic Decline and Democratic Renewal** Ian Marsh 2012-07-26 The story of liberal democracy over the last half century has been a triumphant one in

many ways, with the number of democracies increasing from a minority of states to a significant majority. Yet substantial problems afflict democratic states, and

while the number of democratic countries has expanded, democratic practice has contracted. This book introduces a novel framework for evaluating the rise

and decline of democratic governance. Examining three mature democratic countries – Britain, Australia and New Zealand – the authors discuss patterns of

governance from the emergence of mass democracy at the outset of the twentieth century through to its present condition. The shared political cultures and

institutional arrangements of the three countries allow the authors to investigate comparatively the dynamics of political evolution and the possibilities for

systemic developments and institutional change.

**Net Neutrality and the Battle for the Open Internet** Danny Kimball 2022-08-24 “Net neutrality,” a dry but crucial standard of openness in network access,

began as a technical principle informing obscure policy debates but became the flashpoint for an all-out political battle for the future of communications and

culture. Net Neutrality and the Battle for the Open Internet is a critical cultural history of net neutrality that reveals how this intentionally “boring” world of

internet infrastructure and regulation hides a fascinating and pivotal sphere of power, with lessons for communication and media scholars, activists, and anyone

interested in technology and politics. While previous studies and academic discussions of net neutrality have been dominated by legal, economic, and technical

perspectives, Net Neutrality and the Battle for the Open Internet offers a humanities-based critical theoretical approach, telling the story of how activists and

millions of everyday people, online and in the streets, were able to challenge the power of the phone and cable corporations that historically dominated

communications policy-making to advance equality and justice in media and technology.

**State Aid Law of the European Union** Herwig C. H. Hofmann 2016-08-18 Rules controlling State aid and subsidies on the EU and the WTO level can have a

decisive influence on both regulatory and distributive decision-making. This field of law has grown exponentially in importance and complexity over the past

decades. Rules on State aid and subsidies control are one of the key instruments to ensure that public spending and regulatory measures do not lead to

discriminatory distortions of competition. As a consequence, hardly any part of national law is free from review under criteria of State aid and subsidy regulation.

In turn, State aid and subsidies law is linked to economic, constitutional, administrative law of the EU and the Member States as well as to public international

law. This book brings together leading experts from academia, the judiciary, civil servants from the European Commission, and practising lawyers to provide

expert opinion and commentary on the diverse dimensions of the complex and vital area of law. Critically analysing and explaining developments and current

approaches in State aid law and subsidies, the chapters take into account not only the legal dimensions but also the economic and political implications. They

address the EU law applicable to State aid in the aftermath of the recent State Modernisation reform, and coverage includes: an in-depth analysis of the notion

of State aid as interpreted by the Court's cases-law and the Commission's practice; the rules on compatibility of State aid with the internal market; the rules

governing the procedure before the Commission; the litigation before the Court of Justice of the European Union; and analysis of the other trade defence

instruments, including WTO subsidy law and EU anti-subsidy law.
