**Dochter van Lucifer** Lisa Jackson 2017-06-22 Eve Renner is teruggekeerd naar New Orleans om het verleden te vergeten. Maar daar krijgt ze geen kans voor, want er begint een nieuwe reeks moorden. De slachtoffers zijn ritueel om het leven gebracht en er zijn nummers op hun lichaam getatoeëerd. Er bestaat geen verband tussen de slachtoffers, op één na: het ziekenhuis van Our Lady of Virtues, de psychiatrische inrichting die eens het toneel was van onbeschrijfelijke waanzin. Als kind was het een tweede thuis voor Eve want haar vader was er arts. Zij bracht er uren door om de geheime kamers en gangen te verkennen. Ergens in die vertrekken ligt de sleutel tot een verschrikkelijke misdaad, een onvoorstelbaar verraad waarvan de echo nog steeds doorklinkt. En kan zij Cole, haar voormalige minnaar, wel vertrouwen?

**Kant-Index. Stellenindex und Konkordanz zu George Friedrich Meier "Auszug aus der Vernunftlehre"** Norbert Hinske 1986 Der erste Band des Trierer Kant-Index ist dem Auszug aus der Vernunftlehre des Wolfianers G. F. Meier gewidmet. Kant hat ihn seinen eigenen Logikvorlesungen mehr als vierzig Jahre lang als Kompendium zugrunde gelegt. In seinen Arbeitsnotizen nimmt er auf Schritt und Tritt auf ihn Bezug. Die Akademieausgabe hat den Auszug daher auch zusammen mit dem Logiknachlass im Band XVI wieder mit abgedruckt. Im Unterschied zu Baumgartens Metaphysica aber fehlt hier sogar ein konventioneller Index, der dem Leser die Arbeit erleichtern konnte. Gerade bei diesem Werk aber wird der Mangel besonders spurbar. Meier namlich hat in seinem Auszug die lateinische Schulterminologie der Logik des 18. Jahrhunderts noch einmal bewusst zusammengefasst. Zahlreiche Begriffe der Kritik der reinen Vernunft - Amphibolie, Antithesis, Analytik, Dialektik, Doktrin, dogmatisch usw. - finden hier ihre Vorlage. Meiers Handbuch zahlt daher zu den wichtigsten Quellen fur Kants eigene Terminologie. Fur die Kantforschung, aber auch fur die Erforschung des Wolfianismus und der deutschen Aufklarung insgesamt ist der Indexband ein unentbehrliches Arbeitsinstrument. The first volume of the Kant Index of the University of Trier is devoted to the Auszug aus der Vernunftlehre (Excerpt from the Doctrine of Reason) by the Wolflian G. F. Meier. Kant used it as a compendium for more than 40 years and as a basis for his own lectures on logic. In his notes, he refers to it constantly. This is why the Academy edition reprinted the Auszug along with the literary remains of the logic in Volume XVI. In contrast to Baumgarten's Metaphysica however there is not even a normal index in this edition which could facilitate work for the reader, a lack which is particularly noticeable. In his Auszug, Meier made a point of summarizing the Latin school terminology of logic in the 18th century once again. Numerous terms from the Kritik der reinen Vernunft (Critique of Pure Reason), such as amphiboly, antithesis, analytic, dialectics, doctrine, dogmatic etc have their source material here. Meiers handbook is one of the most important sources for Kants own terminology. For anyone studying Kant, and also for the study of Wolfianism and the German Enlightenment as a whole, this index volume is an indispensable tool.
