Power from the North Caroline Desbiens 2013-05-15 In the 1970s, Hydro-Qu?bec declared "We Are Hydro-Qu?b?cois." The slogan symbolized the intimate ties that had emerged between hydroelectric development in the North and French Canadian aspirations in the South. Caroline Desbiens focuses on the first phase of the James Bay hydroelectric project to explore how this culture of hydroelectricity hastened the erasure of Aboriginal homelands and the manipulation of Northern Quebec's material landscape. She concludes that truly sustainable resource development will depend on all actors bringing an awareness of their cultural histories and visions of nature, North, and nation to the negotiating table.

Stochastic Programming Horand Gassmann 2013 This book shows the breadth and depth of stochastic programming applications. All the papers presented here involve optimization over the scenarios that represent possible future outcomes of the uncertainty problems. The applications, which were presented at the 12th International Conference on Stochastic Programming held in Halifax, Nova Scotia in August 2010, span the rich field of uses of these models. The finance papers discuss such diverse problems as longevity risk management of individual investors, personal financial planning, intertemporal surplus management, asset management with benchmarks, dynamic portfolio management, fixed income immunization and racetrack betting. The production and logistics papers discuss natural gas infrastructure design, farming Atlantic salmon, prevention of nuclear smuggling and sawmill planning. The energy papers involve electricity production planning, hydroelectric reservoir operations and power generation planning for liquid natural gas plants. Finally, two telecommunication papers discuss mobile network design and frequency assignment problems.

Plunkett's Almanac of Middle Market Companies: Middle Market Research, Statistics & Leading Companies Jack W. Plunkett 2007-07 Plunkett's Almanac of Middle Market Companies 2008 is designed to be time-saving business development tool for professionals, marketers, sales directors, consultants and strategists seeking to understand and reach middle market American companies. It will also be of great use to placement, recruiting and human resources professionals, as well as professionals working in economic development, lending and media. It covers competitive intelligence, market research and business analysis--everything you need to identify and develop strategies for middle market corporations. Coverage includes all major business sectors, from InfoTech to health care to telecommunications and much more. (We have intentionally omitted retail companies and banks.) These profiles and details on over 500 middle market firms are pulled from our extensive company and industry databases. We also include a business glossary and a listing of business contacts, such as industry associations and government agencies. Next, we profile hundreds of leading middle market companies. Our company profiles include complete business descriptions and up to 27 executives by name and title. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key information, addresses, phone numbers and executive names with titles for every company profiled.

Shipping in China Tae-Woo Lee 2017-03-02 The Chinese shipping industry is a particularly prominent industry and has rapidly expanded over the last decade. Amazingly, literature on the subject is scarce and this is the first book to focus on it specifically. Bringing together a team of well-known shipping, logistics, economics and political science scholars from the Far East, Europe and the Americas, the volume provides an up-to-date overview of the Chinese shipping industry and its place in international shipping. The contributors analyze and discuss all the relevant major business issues, including marketing, finance, the politics of its development and its organizational structures. The volume will be of critical interest to both academics and professionals in the fields of shipping and transport, transport economics, and business planning and strategy.
