

process Contains helpful case studies from real-world projects and programmes Explores the benefits of the collaborative construction process and how to overcome common obstacles Bridges the gaps between contract law, collaborative working and project management Includes the first analysis of the NEC4 Alliance Contract, the FAC-1 Framework Alliance Contract and the TAC-1 Term Alliance Contract

**European Societies, Migration, and the Law** Moritz Jesse 2020-11-19 Not a day passes without political discussion of immigration. Reception of immigrants, their treatment, strategies seeing to their inclusion, management of migration flows, limitation of their numbers, the selection of immigrants; all are ongoing dialogues. *European Societies, Migration, and the Law* shows that immigrants, regardless of their individual status, their different backgrounds, or their different histories and motivations to move across borders, are often seen as 'the other' to the imaginary society of nationals making up the receiving (nation-)states. This book provides insights into this issue of 'othering' in the field of immigration and asylum law and policy in Europe. It provides an introduction to the mechanisms of 'othering' and reveals strategies and philosophies which lead to the 'othering' of immigrants. It exposes the tools applied in the implementation and application of legislation that separate, deliberately or not, immigrants from the receiving society.

**The New Normal** Amitai Etzioni 2014-11-05 Amitai Etzioni argues that societies must find a way to balance individual rights and the common good. This point of balance may change as new technologies develop, the natural and international environments change, and new social forces arise. Some believe the United States may be unduly shortchanging individual rights that need to be better protected. Specifically, should the press be granted more protection? Or should its ability to publish state secrets be limited? Should surveillance of Americans and others be curtailed? Should American terrorists be treated

differently from others? How one answers these questions, Etzioni shows, invites a larger fundamental question: Where is the proper point of balance between rights and security? Etzioni implements the social philosophy, "liberal communitarianism." Its key assumptions are that neither individual rights nor the common good should be privileged, that both are core values, and that a balance is necessary between them. Etzioni argues that we need to find a new balance between our desire for more goods, services, and affluence, particularly because economic growth may continue to be slow and jobs anemic. The key question is what makes a good life, especially for those whose basic needs are sated.

**Global Insights into Public Service Interpreting** Riccardo Moratto 2021-11-19 This edited volume sets out to explore interdisciplinarity issues and strategies in Public Service Interpreting (PSI), focusing on theoretical issues, global practices, and education and training. Unlike other types of interpreting, PSI touches on the most private spheres of human life, making it all the more imperative for the service to move towards professionalization and for ad hoc training methods to be developed within higher institutions of education. PSI is a fast-developing area which will assume an increasingly important role in the spectrum of the language professions in the future. An international, dynamic and interdisciplinary exploration of matters related to PSI in various cultural contexts and different language combinations will provide valuable insights for anyone who wishes to have a better understanding when working as communities of practice. For this purpose, the Editors have collected contributions focusing on training, ethical issues, professional deontology, the role and responsibilities of interpreters, management and policy, as well as problems and strategies in different countries and regions. This collection will be a valuable reference for any student or academic working in interpreting, particularly those focusing on Public Service Interpreting anywhere in the world.
